

八字结构读取 / BaZi Structural Reading

哪一组四柱结构构成本次读取的基础？ / Which four-pillar structure anchors this reading?

年柱 / Year 己巳	月柱 / Month 庚午
日柱 / Day 癸丑	时柱 / Hour 戊午

癸水日主 · 午月令 / 癸 Water Day Master · 午 month command

原局关系：天干五合、害、自刑 / Natal relations: stem combination, harm, and self-punishment

五行结构分布 / Five-element inventory

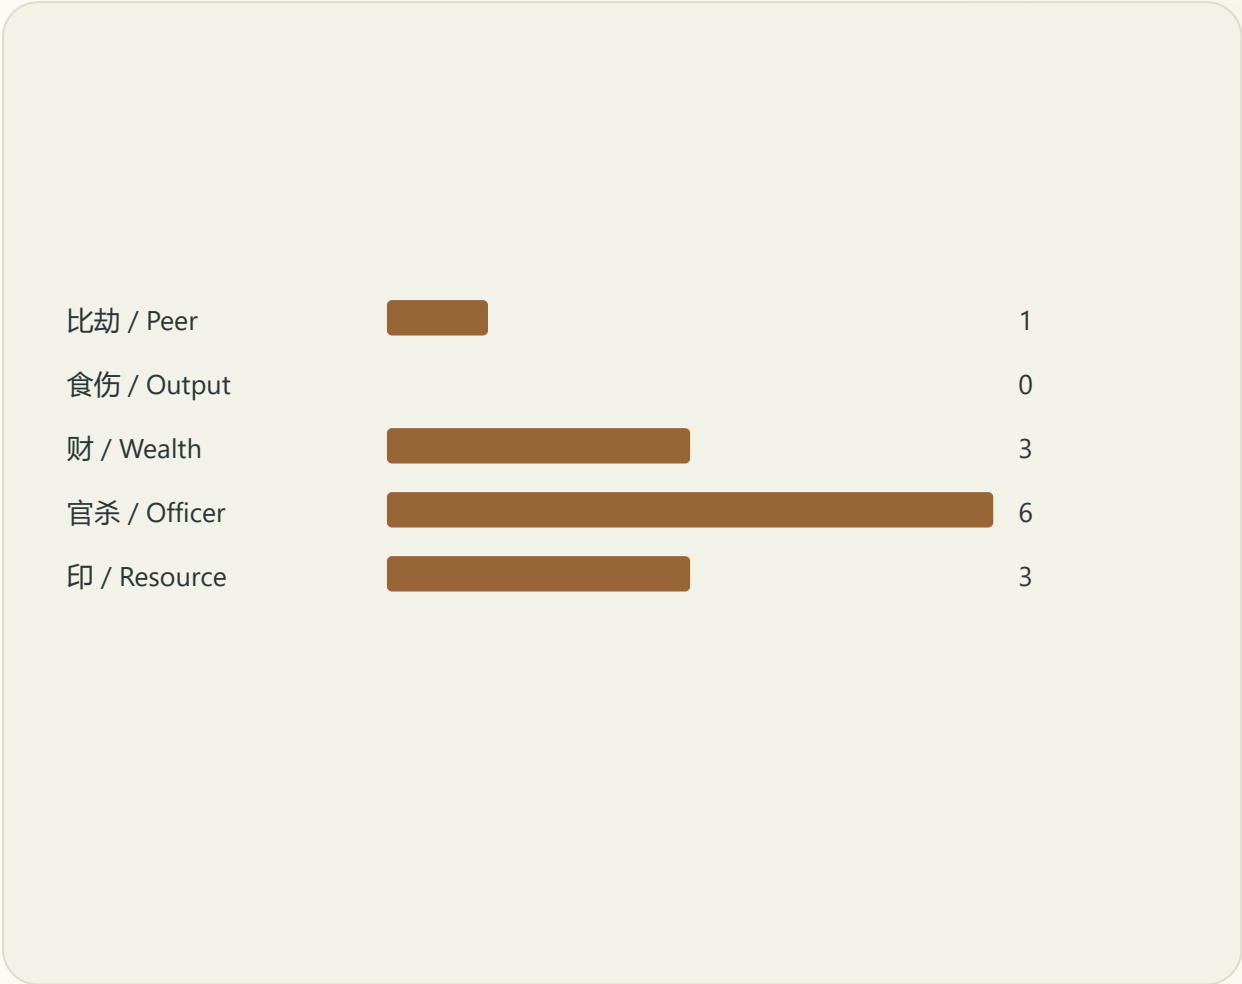

未加权的五行如何分布？ / How are the unweighted elements distributed?

原始计数不等于强弱分数；没有添加藏干权重。

十神功能分组 / Ten-god function groups

来源结构中出现了哪些功能分组？ / Which function groups are present in the source structure?

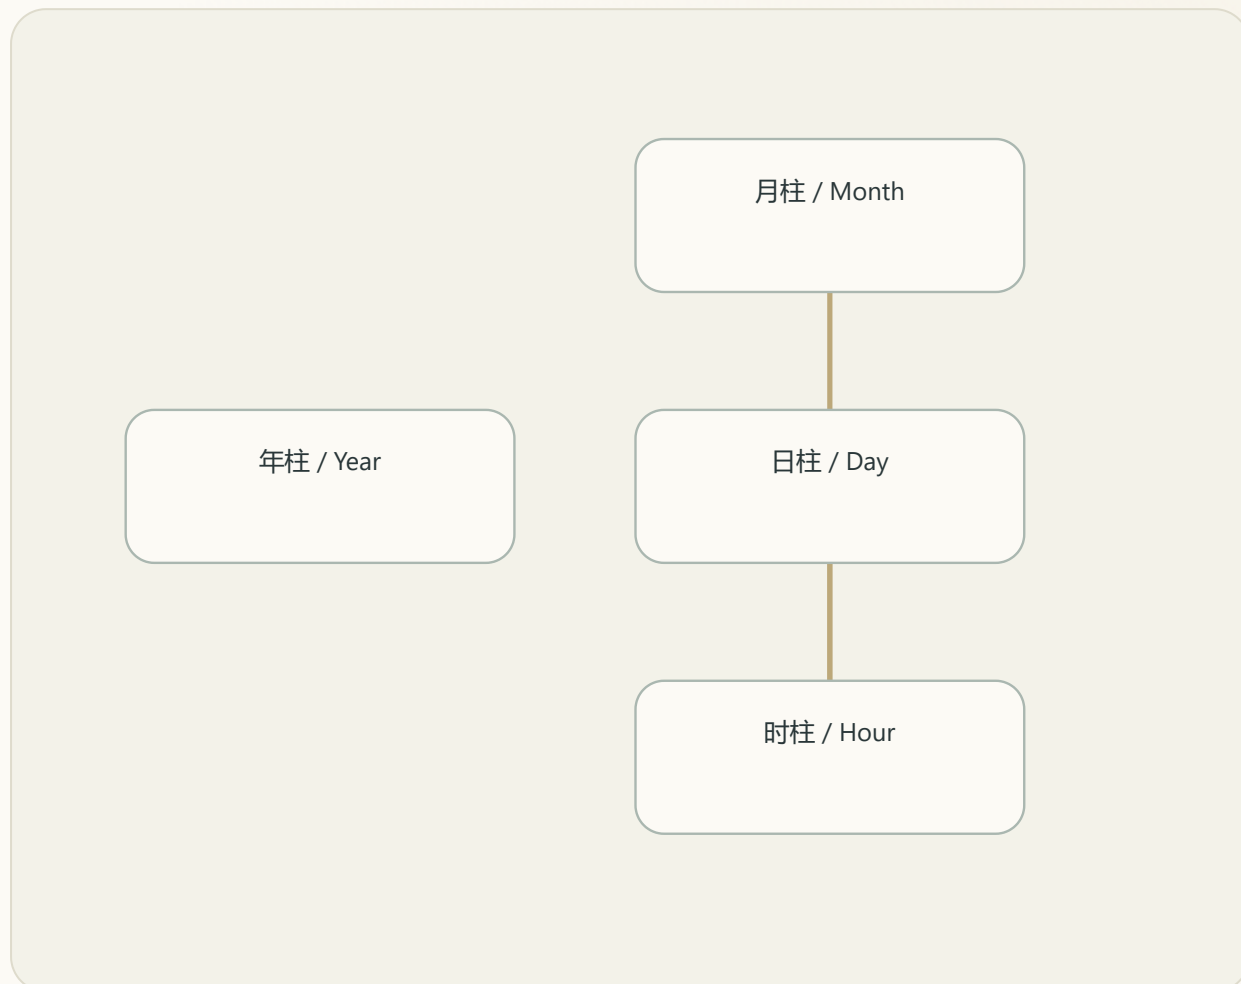

这一功能组约占当前十神落点的 46.2%，主要由七杀、正官构成，因此它会反复出现在多个生活主题里。 / This functional group accounts for about 46.2% of the current Ten-God occurrences and is carried mainly by Seven Killings and Direct Officer, so it is likely to reappear across several life domains.

后面的主题章节会继续说明「规则、责任与压力」在不同领域怎样改变，而不是把同一句十神定义重复七次。 / Later topic chapters show how rules, responsibility and pressure changes by domain instead of repeating the same Ten-God definition seven times.

原局关系结构 / Natal relationships

哪些柱位参与已准入的相互关系？ / Which pillars participate in the admitted interactions?

午、丑之间形成地支相害，而且同时直接碰到日主与月令，所以它不是边缘信息，而是会改写其他主题怎样彼此配合的主线。 / 午 and 丑 form a branch harm relation at an interface that directly touches both the Day Master and month command, so it can reshape how other themes work together.

地支相害描述的是结构关系，不等于现实里一定发生某类事件；真正表现仍取决于场景、角色与后续时间层。 / a branch harm relation describes structural interaction, not a guaranteed event. Its lived form still depends on context, role and later timing layers.

格局候选与成败条件 / Pattern paths and conditions

哪些格局候选仍保持开放？ / Which pattern candidates remain open?

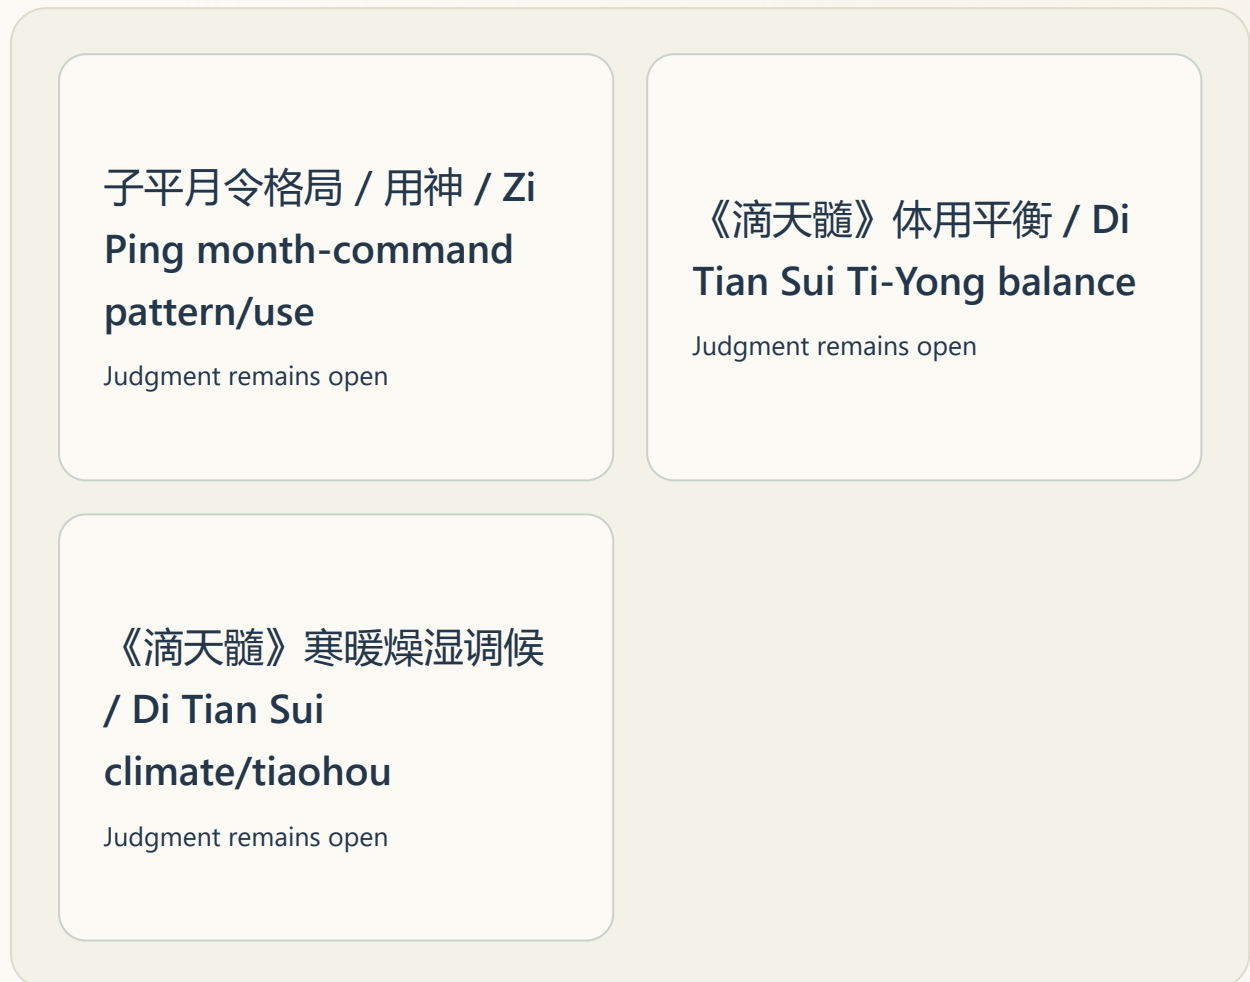

七杀从月令路径进入格局讨论，目前可见 0 条成格支持，同时有 2 项干支关系需要一起修正。 / 七杀 enters the month-command pattern discussion with 0 visible formation paths and 2 relationship modifiers to review.

当前格局路径可以深入解释，但不会因为某一条件突出就自动升级成唯一主格。 / The path can be explained in depth without being promoted automatically to one final primary pattern.

主格局尚未确定。候选出现不等于最终判断。

用神与调候：分学派阅读 / Useful-god and climate lenses by school

不同学派的视角怎样分别保留？ / How are the separate school views retained?

这一视角依据月令、季节与已准入规则保留自己的判断路径。当前没有足够条件形成最终元素选择，因此保持开放。 / This lens keeps its own month-command/seasonal evidence and admitted rule path. Current conditions do not establish a final element selection, so the view stays open.

大运序列 / Luck-cycle sequence

哪些计算时间区间已经可用？ / Which calculated time intervals are available?

4-14

辛未

14-24

壬申

24-34

癸酉

34-44

甲戌

44-54

乙亥

54-64

丙子

64-74

丁丑

74-84

戊寅

这里只呈现序列；缺少目标情境时，不选择当前大运或流年激活。

仍然开放的判断 / What remains open

哪些判断需要继续保持开放？ / Which judgments must remain unresolved?

开放 / Open

A technical verdict remains open.

开放 / Open

The current governed evidence does not establish a formal strong/weak verdict.

开放 / Open

Multiple pattern paths remain open; no primary pattern is established.

仍然开放的判断 / What remains open

哪些判断需要继续保持开放？ / Which judgments must remain unresolved?

开放 / Open

Pattern status still requires formation, defeat and rescue conditions to be resolved.

开放 / Open

This school-qualified view remains open and is not silently merged with other schools.

开放 / Open

The Di Tian Sui climate/tiaohou element selection remains open.

仍然开放的判断 / What remains open

哪些判断需要继续保持开放？ / Which judgments must remain unresolved?

开放 / Open

The Di Tian Sui Ti-Yong element selection remains open.

开放 / Open

The Zi Ping month-command pattern/use verdict remains open.

证据与边界 / Evidence and boundaries

哪些来源记录支持这份报告？ / Which source records support the report?

这是一份基于受治理八字结构的解释性报告，不把结构当作已发生事实，也不预测保证发生的事件。

现实导航 / Reality navigation

哪些现实观察可能反驳这次读取？ / Which observations could contradict the reading?

1

For priority 1, "environment ↔ self anchor is the first interface to read":
Across different roles or environments, where does this same interface repeat—and where does it behave differently?

2

For priority 1, "environment ↔ self anchor is the first interface to read":
What lived example most clearly contradicts this relationship reading, and what condition was different in that case?
