Your Profile evidence

Which evidence sources are available?

Your self-report

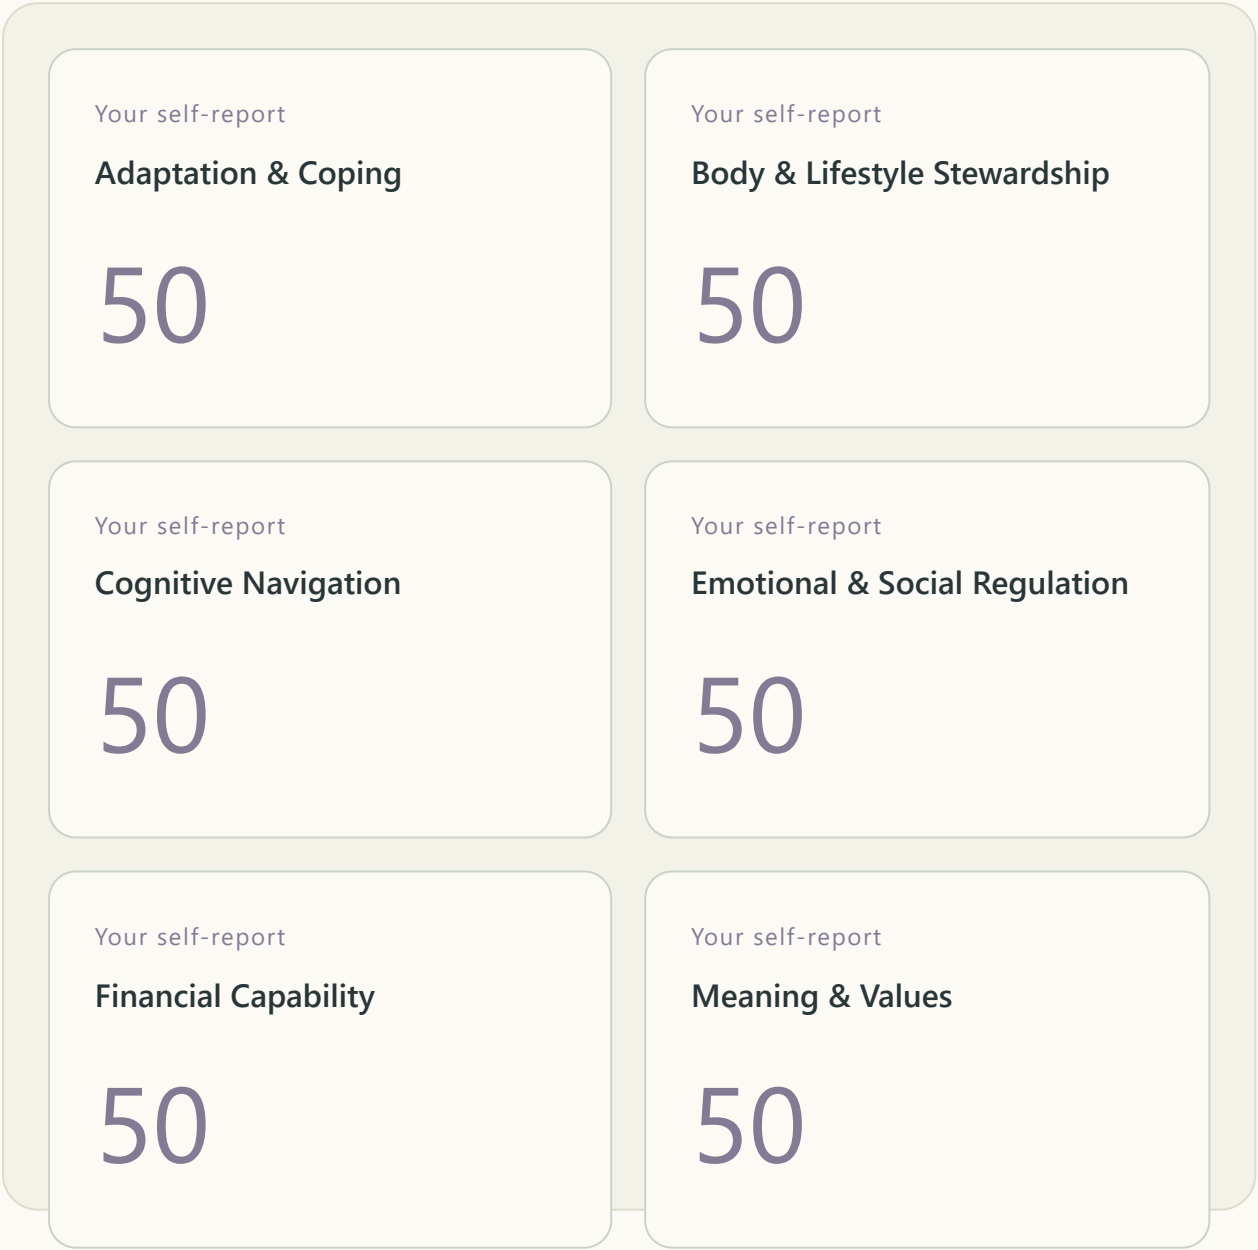

How you describe yourself in this assessment.

Each source keeps its own evidence class.

No universal personality master score is created.

Source-specific dimensions

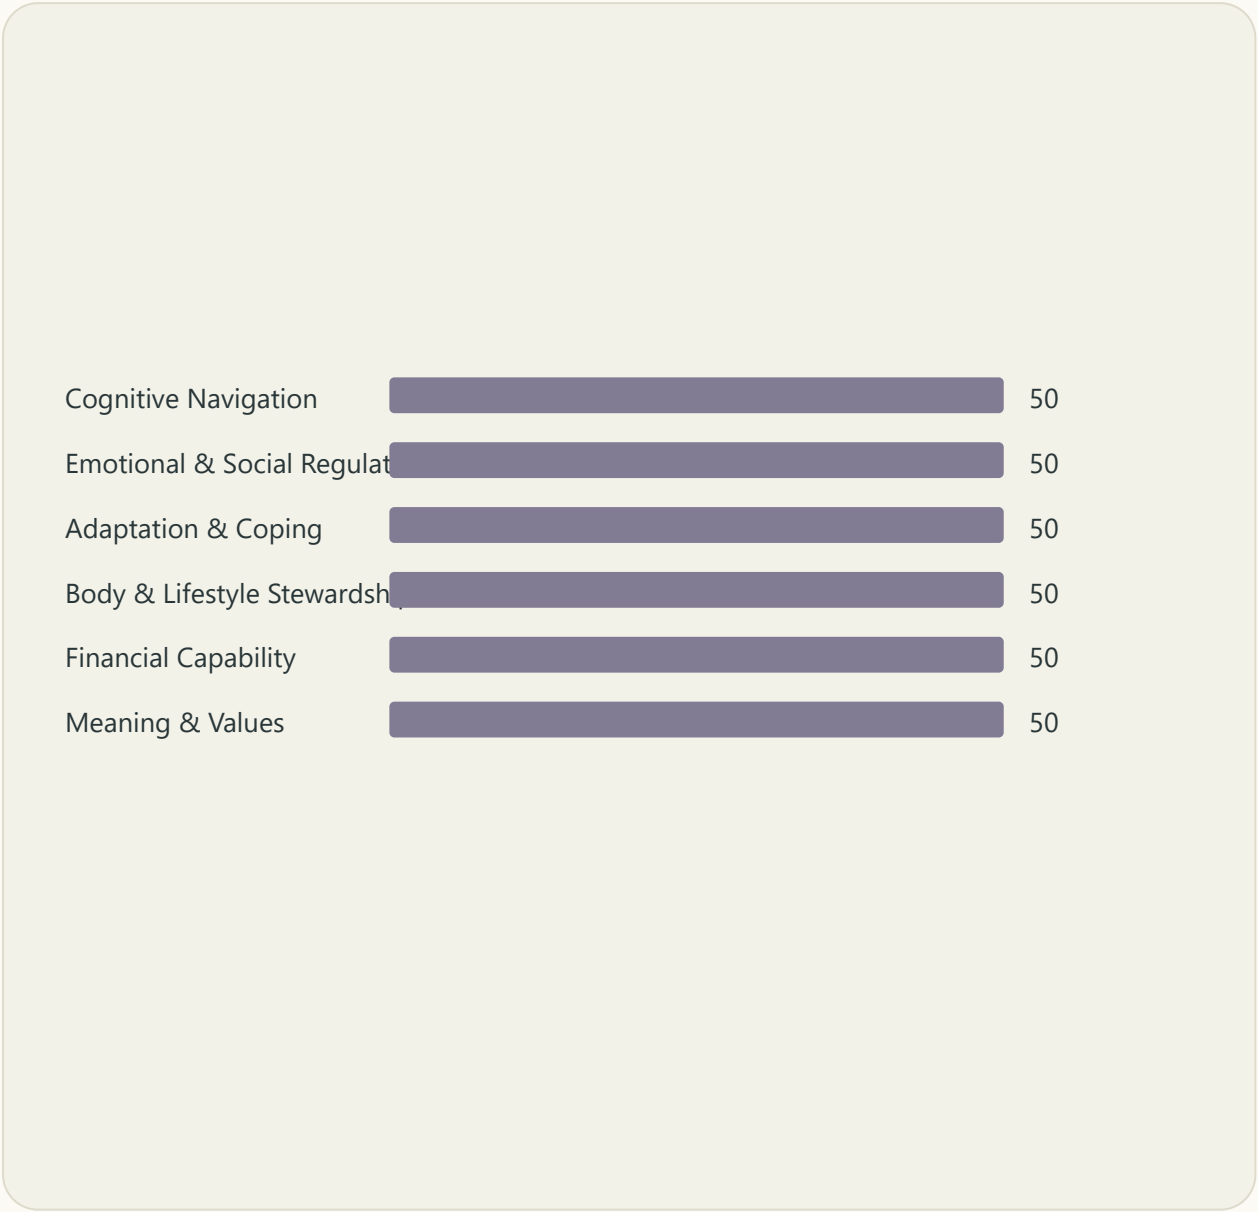

What did this source actually report?

Values retain their original instrument. They are not a shared score or a normed percentile.

Within-source pattern

How do the original dimensions compare within this source?

Each axis is a relative position from this self-assessment only; it is not an IQ/EQ-style quotient or a normed percentile.
