Scope, relationship & fact find
范围、委托与资料收集

SYNTHETIC REVIEW DRAFT · NOT SIGNED · NOT CUSTOMER RELEASE
合成审阅草稿 · 未专业签发 · 不可客户发布

A wholly fictional household, company and sole proprietor connect through existing Account/PWS, Financial, Tax and Testamentary owners. This is a planning preparation draft, not a regulated engagement.
本报告使用完全虚构的家庭、公司及独资主体，串接既有账户、权限、财务、税务及遗产资料机制。仅为规划准备草稿，不代表受监管委托。

Stage / 阶段	Current result / 结果
1 · Scope / 范围	Purpose, consent, fee/conflict disclosure and withdrawal recorded / 已记录用途、同意、报酬与冲突披露及撤销
2 · Fact find / 资料	Independent adult consent; distinct family, personal and business sources / 成年成员独立同意，家庭、个人及企业来源分开
3 · Analysis / 分析	Native formulas with explicit assumptions and unknowns / 使用原生公式，明确假设与未知
4 · Draft / 草稿	Options for specialist review; no recommendation signed / 仅供专业审阅，无已签发建议
5 · Implementation / 实施	Client approval, responsible person and completion evidence separated / 客户批准、责任人与完成证据分开
6 · Review / 复盘	Scheduled; reopening does not complete a review / 已排期，重开不等于完成复盘

Family fact find covers dependants, education and retirement objectives, horizon and assumptions. Risk suitability and insurance needs require further source evidence; business intake is not forced into a personal investment questionnaire.
家庭资料包括受养人、教育与退休目标、期限及假设。风险适合性与保障缺口仍需更多证据；不强迫企业填写个人投资问卷。

Next: confirm the planning purpose and each adult’s sharing consent.
下一步：确认规划用途及每位成年成员的共享同意。

Metric / 指标	MYR	Meaning / 含义
Family net worth / 家庭净资产	330,000.00	Reviewed shared assets minus liabilities / 已同意共享资产减负债
Monthly family surplus / 家庭月结余	3,500.00	Not business cash / 不是企业资金
Education funding gap / 教育资金缺口	100,000.00	Explicit target less existing fund / 明确目标减已有资金
Retirement funding gap / 退休资金缺口	850,000.00	Explicit target less existing assets; no return promise / 明确目标减已有资产，无收益保证

Joint property MYR400,000 and joint mortgage MYR200,000 are each counted once. Only explicitly consented shared summaries enter this view; membership does not disclose the other adult's private records.
共同房产 RM400,000 与共同房贷 RM200,000 各计一次。此处只使用明确同意共享的摘要，家庭成员身份不开放他人的私人记录。

Education target MYR120,000 less MYR20,000 existing; retirement target MYR1,000,000 less MYR150,000 existing. These are stated targets, not forecast outcomes. Inflation 3%, return 0%, retirement age 60 and horizons 8/20 years are synthetic planning assumptions; no product or guaranteed return.
教育目标 RM120,000 减已有 RM20,000；退休目标 RM1,000,000 减已有 RM150,000。属于明确目标而非预测结果。3%通胀、0%收益、60岁退休及8/20年期限均为合成假设，无商品或收益保证。

The original loan balances still need source classification. No revised total liabilities or financing deduction is inferred from ambiguous current/non-current portions.
原贷款余额仍需来源分类，不从流动与非流动部分不清的资料推断负债总额或融资扣除。

Next: review the education and retirement targets against actual supporting evidence.
下一步：以实际证据复核教育与退休目标。

Tax R1.1 & business–owner liquidity

Metric / 指标	MYR	Meaning / 含义
Company accounting profit / 公司账面利润	220,000.00	Not owner income / 不是业主所得
Company partial adjusted amount / 公司部分调整额	226,000.00	Not chargeable income / 不是应课税所得
Company closing cash / 公司期末现金	120,000.00	Not distributable cash / 不是可分配现金
Owner accessible cash / 业主可用资金	Unknown / 未知	Evidence and authorization missing / 缺少证据及授权
Company final tax / 公司最终税额	Unknown / 未知	Company YA2025 rules not admitted / 公司税务规则未准入
Sole accounting loss / 独资账面亏损	-10,000.00	Drawings are not salary / 提款不是工资

Company context now selects a company-specific review-required identity. Its final tax stays Unknown. Only a resident individual YA2025 rate-only schedule is verified for synthetic examples; it cannot be used to tax a company. A source accounting tax entry of zero does not establish zero tax liability.
公司使用独立的待审规则身份，最终税额保持未知。已核验的仅为个人 YA2025 税阶合成演示，不能用于公司。来源账面税额为零不证明最终无需纳税。

MYR6,000 private expense addback makes a partial adjusted candidate of MYR226,000. Capital allowance, BIK, other adjustments, reliefs, rebates and chargeable income remain unresolved. The sole proprietor’s drawings are not salary or dividends.
加回 RM6,000 私人费用后仅为 RM226,000 部分调整候选。资本津贴、实物福利、其他调整、减免、回扣及应课税所得仍待核验。独资提款不等于工资或股息。

Accounting profit, operating cash, restricted/committed cash, owner receipts and household surplus remain separate. Company closing cash cannot be transferred into household available funds without source and authority evidence.
账面利润、经营现金、受限或承诺现金、业主实际所得及家庭结余分别处理。没有来源及权限证据，不能把公司现金列为家庭可用资金。

Next: have a qualified tax reviewer verify company rules, expense treatment and owner payments.
下一步：由合资格税务审核人核对公司规则、费用处理及业主所得。

Native estate report covers a known personal subset only: MYR150,000 assets less MYR20,000 debt = MYR130,000. Joint property and trust interests are excluded from numeric totals pending ownership review. This is not a complete estate valuation or distributable amount.
原生遗产报告仅涵盖已知个人子集：资产 RM150,000 减负债 RM20,000 为 RM130,000。共同房产与信托权益须先核对归属，不列入此数值。该数额不是完整遗产估值或可分配额。

Document / 文件	Boundary / 边界
Will / 遗嘱	Existence noted; validity, witnesses and execution unverified / 仅记录存在，有效性、见证与签署未核验
Living / Declaration / Testamentary Trust	Three distinct types; ownership transfer not verified / 三类独立，资产转移未核验
POA / 授权书	Separate scope and legal effect; does not replace Will/Trust / 独立用途与法律效力，不代替遗嘱或信托
Digital assets / 数字资产	Non-secret inventory only; passwords/OTP/private keys rejected / 仅非秘密盘点，拒绝密码、OTP及私钥
Custody / 保管	PDF download is not original retrieval / PDF下载不等于原件取回

Limited company 60/40 interests and an incapacity trigger are synthetic. Illustrative funding gap MYR500,000 is not an agreed buy-sell value. Agreement, transfer restrictions, independent valuation and funding evidence remain missing. Partnership and LLP need their own evidence; sole proprietorship has no share buy-sell admission.
公司60/40权益与失能触发均为合成设定。RM500,000资金缺口不是约定买卖价格。协议、转让限制、独立估值及资金证据仍欠缺。合伙与LLP须各自证明；独资不按股份买卖处理。

Next: verify ownership, executor candidates, trust funding and succession documents with the appropriate specialist.
下一步：由适当专业人员核对产权、执行人候选、信托注资及企业传承文件。
