报告内容按照您选择的语言生成；封面及固定章节页统一采用中英双语版本。

01 PHI 构型总览

这份报告展开同一份 PHI 卡与出生坐标基线，读取构型、运动与结构位置，不据此断言你当前的处境。

03 核心问题

- 究竟发生了什么？ Q1

这一主题把长期方向背景 CC01、现实语法 G1 与配对的基础问题 Q1 放在同一条运行坐标中阅读，不把任何一层当成人格标签。

▶ 来源与溯源

04 能力区域

- 理解能力 R2
- 表达能力 R3

基础问题 Q1 按版本化 ECR 问题—能力矩阵，首先调用 R2。

▶ 来源与溯源

05 驱动优先级

基线驱动优先级不会自动成为你当下的现实优先级。

- 1. 太阳驱动 D1
- 2. 交点驱动 D12
- 3. 月亮驱动 D2
- 4. 地球驱动 D11
- 5. 水星驱动 D3

- 6. 冥王星驱动 D10
- 7. 金星驱动 D4
- 8. 海王星驱动 D9
- 9. 火星驱动 D5
- 10. 天王星驱动 D8
- 11. 木星驱动 D6
- 12. 土星驱动 D7

十二种驱动始终存在。出生坐标基线按照 ECR 太阳锚点扇区距离规则，把 D1 排在首位；这不是对当前现实驱动优先级的判定。

Internal review preview

Report content follows your selected language. Covers and fixed section pages use the shared bilingual edition.

01 PHI Configuration Overview

This report expands the same PHI Card and birth-coordinate baseline. It reads configuration, motion and structural position; it does not establish your present circumstances.

03 Core Question

- What is actually happening? Q1

This theme combines the recorded long-range context CC01, Reality Grammar G1, and its paired baseline question Q1; none of the three is treated as a personality label.

▶ Sources and lineage

04 Capability Region

- Understanding R2
- Expression R3

The baseline question Q1 resolves to R2 as the primary capability in the versioned ECR question-capability matrix.

▶ Sources and lineage

05 Driver Priority

Baseline driver priority is not automatically your present-day priority.

- 1. Solar D1
- 2. Nodal D12
- 3. Lunar D2
- 4. Earth D11
- 5. Mercurial D3
- 6. Plutonian D10
- 7. Venusian D4
- 8. Neptunian D9
- 9. Martial D5
- 10. Uranian D8
- 11. Jovian D6
- 12. Saturnian D7

All twelve driver identities remain present. The birth-coordinate baseline ranks D1 first by the ECR solar-anchor sector-distance rule; this is not a claim about the current Reality driver priority.
