什么是 PHI 构型？

WHAT IS PHI CONFIGURATION?

PHI 构型是一种结构化的方式，
用来理解一个人的运行配置、运动状态与现实位置。

PHI Configuration is a structured way to understand a person's runtime configuration, motion and reality position.

它从经过验证的天文计算与结构化资料出发，梳理你所面对的核心问题，识别你的能力区域。与驱动关系，分析你的运动方式与构型特征，并进一步指向可落地的现实应用方向。

It starts from verified astronomical calculations and structured data, clarifies your core questions, identifies your capability regions and driver relationships, analyses your motion and configuration characteristics, and further points to practical, real-world applications.
